

SUMMARY

I am a software developer with a passion for creating attractive and efficient solutions. I am proficient in Dart programming language, with hands-on experience in the Flutter framework and a deep understanding of software architecture and design principles. Equipped with technical skills and a collaborative mindset, I am an asset to teams or organizations that I become part of.

EDUCATION

Addis Ababa University

Bachelor's Degree in Computer Science

- **Results-Oriented:** Always trying to deliver results.

CERTIFICATIONS

- Career Skills in Software Development certification
- Flutter course certification

PROFESSIONAL EXPERIENCE

Flutter Developer Intern

SantimPay Financial Solutions | June - August

- Utilize GetX and BLoC state management packages to enhance and maintain real-world applications
- Collaborate with team members to identify and resolve issues
- Contribute to the development of new features

Some of my completed projects

- **Online Shop:** An online shop application that offers a comprehensive shopping experience. The app is made using Flutter and uses Firebase for backend.
- **Movie DB:** Movie DB is designed for movie enthusiasts, providing an easy and interactive way to explore the latest popular, upcoming, and top-rated movies. The app is made using Flutter and the Movie DB API to fetch the movies.
- **Notes and To-Do:** Notes and To-Do is designed to streamline daily tasks and note-taking needs. All notes and to-dos are stored on device so the data persists across app restarts. Made using Flutter.
